REQUEST FOR INTEREST FLIGHT INSTRUCTION BAMBERG COUNTY AIRPORT 99N

Background

Bamberg County is a county located in the southwestern portion of South Carolina. As of the 2010 census, the population was 15,987, making the rural county the fourth-least populous of any in South Carolina. Adjacent counties include Orangeburg County – north, Dorchester County – east, Colleton County – southeast, Hampton County – south, Allendale County – southwest, Barnwell County – west. The airport is located approximately 27 miles southwest of Interstate 26 and 53 miles south of Columbia, SC.

Major highways: US21, US78, US301, US321, US601

Cities include Bamberg (County Seat), Denmark. Towns include Ehrhardt, Govan, Olar

Bamberg County Airport Tobul Field is located 5 miles West of the City of Bamberg. The airport was opened in October of 1982. The runway is 3,603' x 50' with medium intensity runway lighting. Elevation is 230.7' MSL.

The County has recently begun a major upgrade of the facilities at the airport. A self-serve AVGAS fuel system has been installed. The AVGAS price is one of the lowest in South Carolina. An old building was remodeled into a very nice modern FBO facility. Major upgrades were recently finished to a hangar/office building. Near-future plans call for the construction of two T-hangar buildings and two community hangar buildings for aircraft storage. Crosswinds Aviation from Orangeburg has established charter operations from another hangar facility on the field.

Need

Bamberg County officials are interested in leasing space at the airport for flight instruction to begin operations. Favorable rental structure of the facilities can be negotiated to assist the flight school in the early months of operations. In addition, Denmark Technical College, located 3 miles from the airport has expressed an interest in a joint effort with a flight school.

Please fill out the attached form if you are interested in discussing the opportunity to offer flight instruction at the Bamberg County Airport. All parties interested in locating at Bamberg County Airport will be evaluated on the maximum benefit to the County Airport.
